Subject: Online Backup - Protection from Ghosts and Goblins

**HALLOWEEN 25% OFF
ONE-DAY ONLY SALE**

Save 25% on NovaNet-WEB Online Backup Software for One Day Only!

If you have ever lost data, you know how scary it feels.

The Only Scary Part Would be if You Missed It!
Online backup - it is the killer application for broadband, the biggest trend in data protection in homes and businesses around the world. The benefits are obvious - offsite, secure backups, shorter backup times, and true hands-off ease of use.

Now you and your clients never have to be frightened again!

So when the ghosts and goblins come knocking, know your data and your client's data is protected. It's the only way to recover if things go bump in the night.

NOVANET-WEB SOFTWARE
