**Subject:** NovaStor Exhibits at ISPCON 2008

### Visit NovaStor at ISPCON Booth #224 with FISPA

**NovaStor is pleased to announce that we will be exhibiting at ISPCON in Chicago, May 13 - 15, 2008.**

We will be demonstrating **NovaNet-WEB™**. NovaNet-WEB is the ideal software for providing data backup and availability via the internet or intranet. Service providers can use NovaNet-WEB to offer private or business customer offsite and remote backup as a simple service.

ISPCON is being held at the Donald E. Stephens (Rosemont) Convention Center. NovaStor will be exhibiting in booth #224 with FISPA (Federation of Internet Solutions Providers of the Americas), [www.fispa.org](http://www.fispa.org).

NovaStor will also be speaking at FISPA's Members Meeting on Tuesday, May 13th at 6:30 pm.

We invite you to stop by the booth for a demonstration on how NovaNet-WEB can add value to your Service Provider business.

To make an appointment to meet with a NovaStor Representative please send us an e-mail, [marketing@novastor.com](mailto:marketing@novastor.com)

Best regards,

The NovaStor Team
