Dear MAJOR,

As a Nuance PaperPort user, you like making quick work of everyday tasks. So imagine how much more productive you'd be if your everyday tasks no longer involved typing. Most people type about 40 words per minute but speak more than 120 words per minute. What if you could create email, documents and spreadsheets simply by speaking? Or control your PC just by talking to it, starting programs, using menus, surfing the Web? That would be pretty amazing. And fast.

Revolutionize the way you work with the world's best speech recognition software, Dragon NaturallySpeaking 10 Preferred - another great solution from Nuance, the world leader in speech recognition solutions.

That being said, we're currently bracing for our highest ever demand for Dragon NaturallySpeaking. As a valued customer, we're giving you the opportunity to **pre-order now** so that you'll receive your copy of Dragon as soon as it begins shipping on August 7th. After all, we don't want our best customers suffering through any of the anticipated delays. Here's more about Dragon NaturallySpeaking 10 Preferred and why you shouldn't wait another minute to order.

**Triple your productivity, immediately.**

Just speak and Dragon NaturallySpeaking 10 Preferred automatically transcribes up to 160 words a minute. It's the fastest, most accurate speech recognition software available - so easy, you can use it right out of the box without training. Just look what you can accomplish at home, the office and even on the go:

- Create and edit documents and spreadsheets by voice
- Quickly send email and instant messages
- Quickly search the Web and your desktop by voice
- Format and correct text by voice
- Use a single voice command to insert blocks of text or graphics, like your name, title, logo and signature
- Easily proof your documents with dictation playback
- Dictate into a handheld recorder for transcription later
- Enjoy 99% accuracy - more accurate than the most skilled typists

**That's just the tip of the iceberg when it comes to benefits.**

Just about anything you do now by typing you can do faster

**Two ways to order:**
